A first impression

We offer for sale an exclusive property complex located on top of a hillock a short distance from the sea and the characteristic village of Santa Luce. The property consists of three buildings, an old farmhouse nestled in the beautiful Tuscan countryside, characterized by rolling hills planted with wheat, wine and olive trees. The complex consists of four separate units, each with unique features and generous spaces.

Two of the units, adjacent to each other, each extend over 300 square meters distributed on two floors, offering ample space and the possibility of customization. The other two units are independent: one, about 70 sqm, currently used as a warehouse, and the other, about 120 sqm, for residential use, perfect for hosting families or groups of friends.

This property complex is ideal not only for those looking for a prestigious private residence, but also for those who want to start a tourist business or a bed & breakfast, thanks to its versatile configuration and generous spaces.

The private olive trees allow you to produce enough excellent olive oil for the family use.

The property enjoys a unique and privileged location, with a breathtaking view that sweeps from the coast to the majestic Apuan Alps, offering an uninterrupted natural spectacle from sunrise to sunset.

The complex is enhanced by a swimming pool and surrounding land maintained in perfect condition, ensuring moments of relaxation and recreation in an environment of absolute beauty and tranquility.

Don't miss the opportunity to live or invest in this real estate gem, where comfort, natural beauty and opportunities for tourism development come together in one extraordinary proposal.

In case of interest a partial purchase might be examined by the sellers.

Details of amenities

The two main units, now divided, were originally born as a single body, it would be possible through building intervention to unify them again.

Heating is provided today by LPG boiler, given the sunny and unobstructed location it would be ideal to install photovoltaic panels and / or hot water production with a view to saving energy.

The only outbuilding has been rented touristically for several years with great and proven success.
